

Techno Tools Corporation

Model D440A

Refrigerant Gas Leak Detector

Description

Techno Tools' D440A features a long life solid electrolyte sensor technology that is designed to detect the more current and difficult HFC refrigerants such as R-134a and the new HFO-1234yf. The D440A's unique digital leak size indicator takes the guesswork out of whether or not to repair a small leak. The digital display is independent from the audio alarm and sensitivity level, allowing the precise pinpointing of the leak source. The D440A does not require rechargeable batteries.

**SAE J2791
CERTIFIED**

**EURO STANDARD
EN14624**

Features:

- Long life, stable sensor
- Unique numeric leak size indicator
- Automatic calibration and reset to ambient levels
- 3 adjustable sensitivity levels
- Visual LED leak alarm located near sensor
- True mechanical pump
- Low battery indicator
- Uses 4 AA alkaline batteries
- Audio mute function
- Comfortable neoprene grip
- CE Certified
- Made in USA
- 2- year warranty includes sensor
- Rugged carrying included
- Euro Standard EN 14624
- SAE J2791

Product Specifications

Model #	D440A
Name	Leak Detector, Refrigerant Gas
Sensitivity	.05 oz/yr R-134a
Sensor Life	> 10 years
Response Time	Instantaneous
Power Supply	4 AA Alkaline batteries
Battery Life	8 hours continuous
Warm up time	< 20 seconds
Probe length	17 inches
Numerical Display	7 segment digital display (1 to 9)
Weight, lbs	1.5 lbs.
Warranty	2 years (includes sensor)
